

Standard Features:

- **Print, Fold and Seal:** One-step process eliminates excess document handling
- **Document Security:** Enclosed paper path from the printer to pressure sealer ensures security. Ideal for PIN notices or other confidential applications
- **Form Capabilities:** Processes forms up to 14" in length
- **Printer Compatibility:** Designed to work with HP/Troy P4015, P4014, 4350, 4250 & 4200 laser printers with two 500-sheet paper trays. A list of other compatible models is available.
- **Installation:** Easy to install, no software required
- **Alignment Base:** Special alignment base holds the printer and pressure sealer securely and slides apart for easy access to paper path and fold plates
- **Pre-Programmed for 3 Popular Folds:** Automatic fold plate setup for Z, C *, Half and custom folds
- **Custom Folds:** Stores up to 9 different custom folds into memory
- **Fault Detector:** Detects double feeding and any faults
- **Dedicated Use:** Designed for in-line use only

Options:

- **P2052IL:** Cost-saving package that includes FD 2052IL System, 18" conveyor and 2 cabinets
- **18" Conveyor w/Photo Eye:** Allows for neat and sequential stacking
- **Locking Cabinets:** Fully enclosed for storage (2 cabinets required)

* C-Fold bottom check position only

FD 2052IL System shown with IL Pressure Sealer and IL Alignment Base, laser printer (not included), optional conveyor and optional locking cabinets

Secure Processing of One-Piece Mailers

The FD 2052IL System allows operators to print, fold and seal pressure-sensitive one-piece mailers in one step, reducing processing time while increasing document security and confidentiality. The IL System works in-line with model-specific MICR and non-MICR desktop laser printers.

The IL System incorporates the industry-leading fully-automatic FD 2052 AutoSeal® which features six automatic fold settings, a user-friendly LED control panel and the ability to store up to 9 custom folds into memory. The FD 2052IL is ideal for companies processing multiple fold types or for those who need a robust, desktop solution for larger mailings.

Flexible

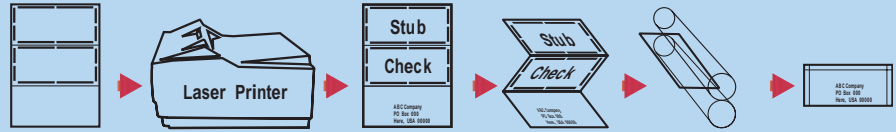

The FD 2052IL System handles a variety of documents up to 8.5" x 14" including checks, invoices, school reports, tax forms and appointment notices. Pressure seal mailers can be used for virtually any application that can be printed on one form.

User-friendly Control Panel

Pressure Seal Solution

The AutoSeal® FD 2052IL System, combined with a laser printer and pressure seal forms, creates a secure, time saving and efficient solution for paper processing.

Standard "Z" Fold Process

Easy to Operate

The AutoSeal IL System is easily installed. An IL-compatible desktop laser printer (see Specifications, below) is placed on the IL Alignment Base with the FD 2052IL pressure sealer using placement guides to ensure proper alignment. The IL Alignment Base incorporates an easy-pull system which allows the printer to be pulled away from the FD 2052IL to provide convenient access to the paper path and fold plates.

Enclosed paper path provides optimal document security

Powerful

The FD 2052IL sets a new standard as the first heavy-duty tabletop pressure sealer capable of running in-line with laser printers. The FD 2052IL processes up to 175,000 forms per month in a compact and powerful design. The user-friendly control panel features LED indicators and a six-digit resettable counter.

Standard Catch Tray

Specifications:

Printer Compatibility:	HP/Troy P4015, P4014 only with two 500-sheet trays HP/Troy 4350, 4250, 4200 only with two 500-sheet trays HP M601, M602, M603 only with two 500-sheet trays
Fold Types:	Z & V (all applications), C (bottom check position only)
Speed:	Printer dependent
